

Grant History Score – Local Governments Eligible for Points

The following local governments are eligible for the Grant History points on the CDBG Application. As of August 14th 2008, they have not had an open grant during the past five years. This list will be reviewed on August 14th to ensure that no grant has been awarded prior to the opening date of the 2008 application cycle (August 15). If it is determined that any local government on the list has had an open grant during the five years prior to the opening date of the application cycle, the local government will be removed from the list and will not be eligible for the grant history points.
